

Radial Animated Storyboards

*Lines slide in a cascade, starting from centermost circle. Hold at completion for 2sec.
Lines slide out in a reverse cascade.*

*Lines slide in a cascade, starting from centermost circle. Hold at completion for 2sec.
Lines slide out in a reverse cascade.*

*Lines slide in a cascade, starting from centermost circle. Hold at completion for 2sec.
Lines slide out in a reverse cascade.*

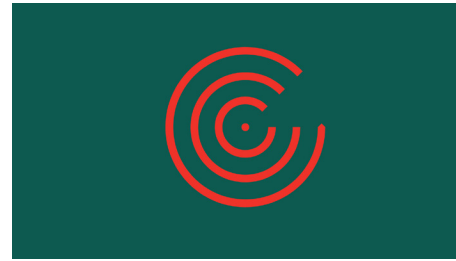

*Lines slide in a cascade, starting from centermost circle. Hold at completion for 2sec.
Lines slide out in a reverse cascade.*

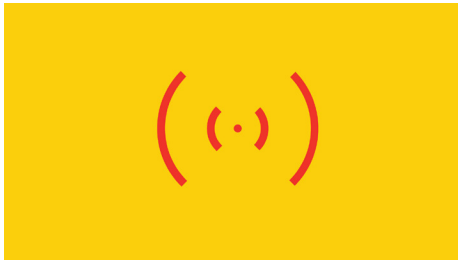

Lines slide in a cascade, starting from centermost circle. Hold at completion for 2sec.

Top three lines slide out futher in a cascade. Hold at completion for 2sec.

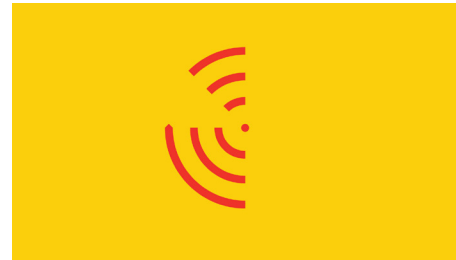

*Top three lines stay while bottom three lines slide out futher in a cascade. Hold at completion for 2sec.
Lines slide out in a reverse cascade.*

*Background color changes.
Innermost and outermost lines slide out in a cascade. Hold at completion for 2sec.
All lines rotate 90 degrees from center point, to the right.*

*Once rotation completes, middle lines slide in. First top, then bottom.
Hold at completion for 2sec. Right half of lines slide out in a reverse cascade.*

*Top three lines stay while bottom three lines slide out futher in a cascade. Hold at completion for 2sec.
All lines rotate 180 degrees from center point, to the right.*

Bottom three lines reverse slide in in a cascade. Hold at completion for 2sec.

Radial Animated Storyboards

Top three lines stay while bottom three lines slide out further in a cascade. Hold at completion for 2sec.
Lines slide out in a reverse cascade.

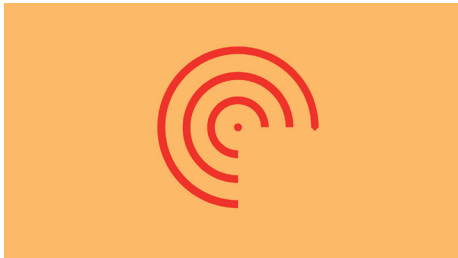

Lines slide in a cascade, starting from centermost circle. Hold at completion for 2sec.
Innermost line rotates from center 45 degrees...

...while second innermost line slides in. Two outermost lines -- bottom left and top right -- slide further out in a cascade. Top left arrow fills in. Hold at completion for 2sec.

Background color changes. All lines complete circles in a cascade. Hold at completion for 2sec.

Bottom right quadrant lines slide out in a reverse cascade. Hold at completion for 2sec. Bottom left half lines slide out in a reverse cascade...

...while two right lines slide in a cascade. Hold at completion for 2sec.
Lines slide out in a reverse cascade.

Lines slide in a cascade, starting from centermost circle. Hold at completion for 2sec.
All lines rotate back to zero degrees from center point, to the right.

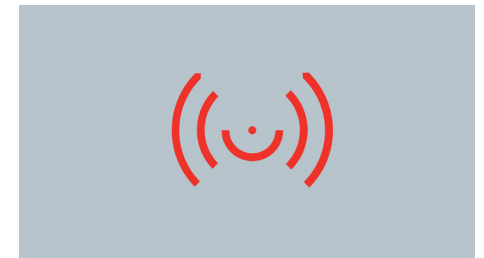

Once rotation completes, top half lines slide in a cascade, starting from centermost circle, while bottom half lines slide out in a reverse cascade. Hold at completion for 2sec.

Background color changes. Once rotation completes, top half lines slide out in a reverse cascade. Hold at completion for 2sec.

Lines slide out further in a cascade. Hold at completion for 2sec.

Center lines slide out further, while bottom center of outermost lines slides out in a cascade. Hold at completion for 2sec.

All lines rotate 180 degrees from center point, to the left...

Radial Animated Storyboards

Serifs slide out, while bottom center of innermost line "breaks" in two.
Hold at completion for 2sec.

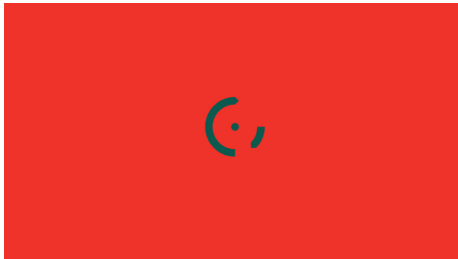

All lines rotate 90 degrees from center point, to the left. Right half of bottom lines slide out in a reverse cascade. Two serifs slide in at equal speed. Hold at completion for 2sec.

Lines slide out in a reverse cascade.

Lines slide in a cascade, starting from centermost circle. Hold at completion for 2sec.

Lines slide out in a reverse cascade.

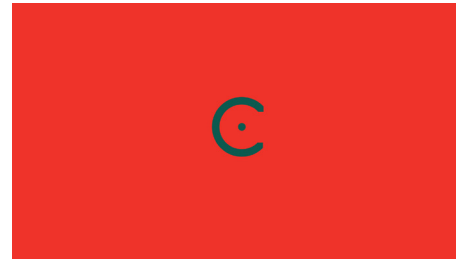

Background and foreground colors change. Lines slide in a cascade. Hold at completion for 2sec. right line slides out in reverse, then left line rotates 90 degrees from center to the right.

Once rotation completes, second line slides in. Hold at completion for 2sec.

Outermost line slides out in reverse. Second outer line rotates until it reaches 30 degrees.

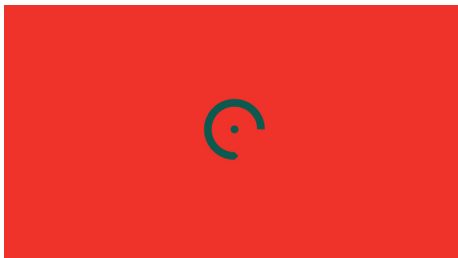

Bottom of line finishes by sliding out. Hold at completion for 2sec.

Top and bottom halves of line slide out in reverse until it hits the y-axis.

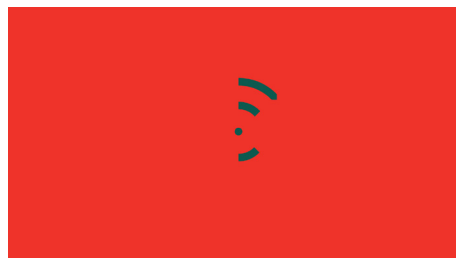

Outermost line slides out from right. Hold at completion for 2sec.

Outermost line slides out in reverse.

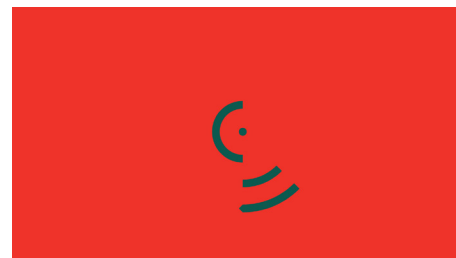

Outermost line slides out from right. Top of line slide out. Arrow forms at bottom. Hold at completion for 2sec.

Line slides out in reverse from top.

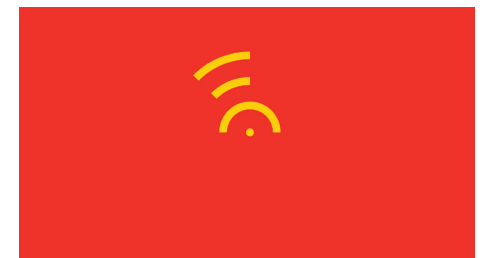

Lines slide in a cascade, starting from centermost circle. Hold at completion for 2sec.

Lines slide out in a reverse cascade.

Lines slide in a cascade, starting from centermost circle. Hold at completion for 2sec.

Hold at completion for 2sec.

Foreground color changes. Centermost line rotates 90 degrees right. Outer lines follow rotation in a cascade. Hold at completion for 2sec.

Hold at completion for 2sec.

Lines slide out in a reverse cascade.

Radial Animated Storyboards

Lines slide in a cascade, starting from centermost circle.

Hold at completion for 2sec.

Right half of lines slide in...

...then outermost line slides out.

Hold at completion for 2sec.

Lines slide in a cascade, starting from centermost circle.

Lines slide in a cascade, starting from centermost circle.

Hold at completion for 2sec.

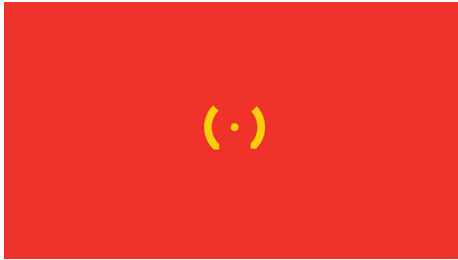

Centermost lines slide out...

...then left half outer lines slide out.

Hold at completion for 2sec.

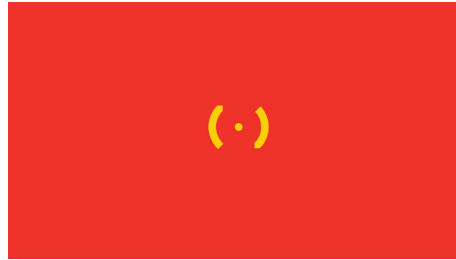

Lines slide in a cascade, starting from centermost circle.

Lines slide in a cascade, starting left, then right.

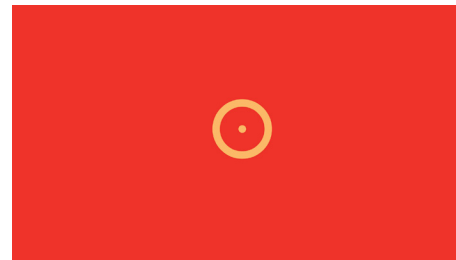

Hold at completion for 2sec.

Bottom left serif slides in (disappears)...

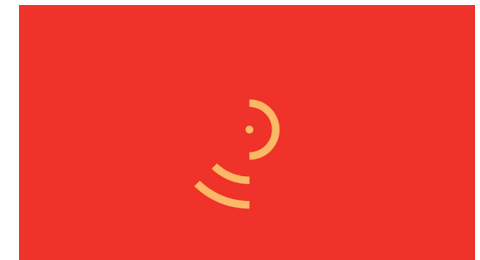

...then top left serif slides out.

Hold at completion for 2sec.

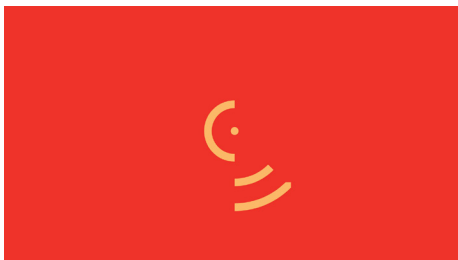

Foreground color changes. Innermost circle completes itself by filling in. Starting with left line, then right line.

Hold at completion for 2sec.

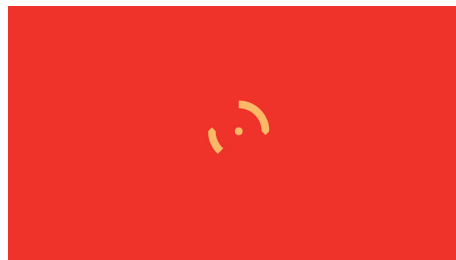

Left half of innermost circle disappears. Two outermost lines slide out in a cascade.

Hold at completion for 2sec.

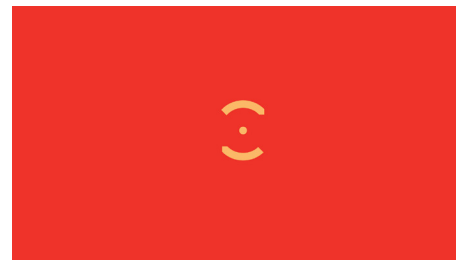

All lines rotate to the left in a cascade.

Hold at completion for 2sec.

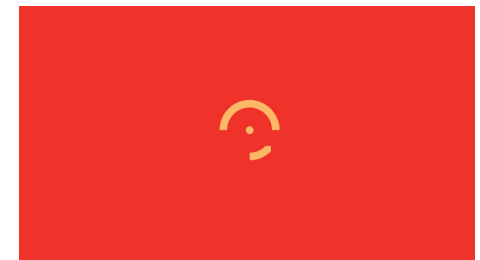

Lines slide in a cascade, starting left, then right.

Hold at completion for 2sec.

Rotate lines left. Bottom line completes.

Hold at completion for 2sec.

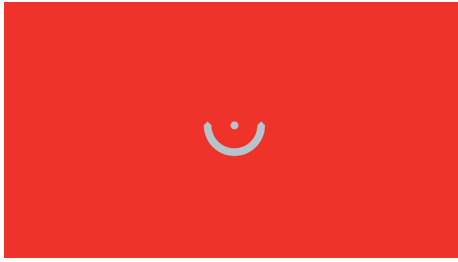

Top half umbrellas to x-axis.

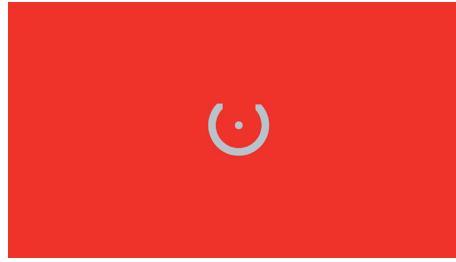

Hold at completion for 2sec.

Lines slide out in a cascade, starting from centermost circle.

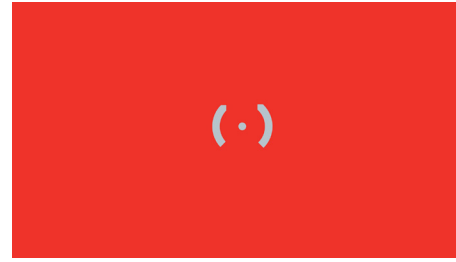

Radial Animated Storyboards

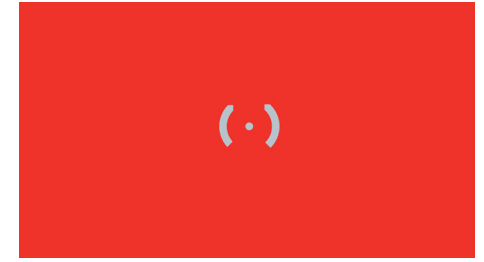

Foreground color changes. Top half line rotates to bottom. Serifs appear. Hold at completion for 2sec.

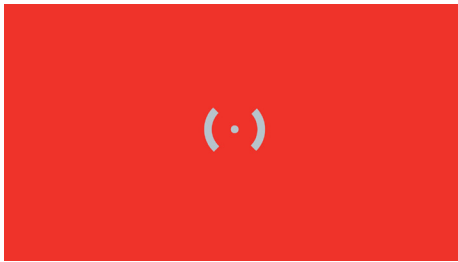

Lines slide out further. Hold at completion for 2sec.

Bottom middle slides out from y-axis. Hold at completion for 2sec.

Bottom middle slides out from y-axis. Hold at completion for 2sec.

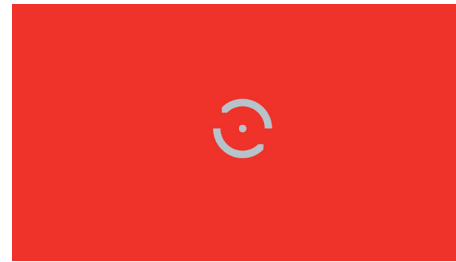

Top serifs disappear. Hold at completion for 2sec.

Lines slide out in a cascade, starting left then right.

Lines slide in a cascade, starting from centermost circle. Hold at completion for 2sec.

Lines slide out in a cascade, starting from centermost circle.

Lines slide in a cascade, first top then bottom. Hold at completion for 2sec.
